

À savoir

- P_1 $P(\bar{A}) = 1 - P(A)$.
- P_2 $P(\emptyset) = 0$.
- P_3 $0 \leq P(A) \leq 1$.
- P_4 $P(A) = P(A \cap B) + P(A \cap \bar{B})$ (formule des probabilités totales).
- P_5 $P(A \cup B) = P(A) + P(B) - P(A \cap B)$.
- P_6 $P(\bar{A} \cap \bar{B}) = 1 - P(A \cup B) = P(\overline{A \cup B})$.
