Theoretische Physik V, D-95440 Bayreuth, Germany

Confirmation of the teaching undertaken by Dr. P. Migliano in the University of Bayreuth

To who it might concern,

During his work as a PhD student at my chair in the University of Bayreuth (1.5.2012-31.7.2015), Pierluigi Migliano independently taught several exercise classes. These include

Summer 2012: Theoretical Physics A (Mechanics)

Winter 2012/2013 Hydrodynamics

Summer 2013: Theoretical Physics C (Electro-dynamics)

Winter 2013/2014 Hydrodynamics

Summer 2014: Theoretical Physics A (Mechanics)

Winter 2014 /2015 Theoretical Physics B (Quantum mechanics)

Pierluigi Migliano proved himself to be an excellent teacher, and received high praise from both the Professors responsible for the course, as well as from the students that followed his classes.

Bayreuth, 3/10/2017

Prof. Dr. A.G. Peeters
