$$E \times 13:1$$
 hom $f(x) = -\infty$ him $f(x) = 1$

2)
$$\lim_{x\to +\infty} f(x) = 0$$
 $\lim_{x\to -\infty} f(x) = \frac{1}{2}$

2) asymptote oblique:
$$y = \frac{1}{2}x$$

3) asymptote horitantele,
$$x = -1$$

 $x = \frac{3}{2}$

4) asymptote oblique:
$$y = -x + 2$$

 $y = x - 2$
