10 1.
$$p = 0.98$$
 et $n = 120$.

soit I = [0,955;1].

$$\frac{1.7 - 0.38 \text{ et } n - 120.}{0.98 \times 0.02}$$

 $0.98 + 1.96 \sqrt{\frac{0.98 \times 0.02}{120}}$
